

Pharmacists' Online Registration/ Renewal Process

Uttar Pradesh Pharmacy Council

Uttar Pradesh Pharmacy Council (UPPC) is a statutory body constituted by the Government of Uttar Pradesh under the provisions of the Pharmacy Act 1948, in the year 1956 through UP Govt GAZETE notification. The main objective of the UP Pharmacy Council is to regulate the practice of pharmacy in the state of Uttar Pradesh. The prime function of the Uttar Pradesh Pharmacy Council is to grant registration to the eligible pharmacists possessing requisite qualification as per the provisions of section 32(2) of the Pharmacy Act and to enforce the necessary provisions of the Pharmacy Act 1948.

One of the key functions of UPPC is to grant Registration, Renewal and Transfer thereof to the eligible candidates possessing requisite qualifications.

The Council is currently using manual process to manage Registration, Renewal and Transfer process for Pharmacists. Henceforth, the Council intends to implement a web based solution that would streamline the process for application, appointment, registration, issuance of certificate, payments etc.

1. Scope of Work

1.1 Background

The scope of the assignment involves designing, development, hosting and implementation of Web Based Application for Uttar Pradesh Pharmacy Council. The Web Based Application is envisaged to be a comprehensive, integrated information system designed to manage overall functioning of all key components of Registration, Renewal and Transfer process of the Council. It will need to be ensured that document Verification process continues to happen in the same manner as it is happening in the existing process. The Web Based Application needs to be developed using the industry standard technology and development tools and shall facilitate universal accessibility through the internet.

The objectives for implementation of such a system are:

- ▶ Scalable, secure, robust and responsive Web Based Application for **Registration, Renewal and Transfer process for Pharmacists** (Online Registration/Renewal/Transfer, Online Payment, Document Uploading, Mail/SMS Alert).
- ▶ System that is flexible enough to adapt to evolving policy and administrative rules.
- ▶ Minimize duplication, paperwork and unnecessary redundancy due to manual processing/manual transfer of data and bring in transparency to the process.
- ▶ Better management and retrieval mechanism.

Through this process, UPPC is looking for an Online Management System which could be integrated with existing manual process in order to improve service delivery for Registration, Renewal and Transfer process for Pharmacists. The newly designed system shall be deployed by the successful bidder at UPPC office. In addition to above, the bidder shall also carry out migration of existing data to the proposed online system. The bidder shall be solely responsible to deploy and maintain the system.

1.2 Broad Scope of Work

The System should be driven by an integrated suite of software modules with customization capabilities that supports the basic internal processes of UPPC activities under scope of work and have a common database and Service Oriented Architecture wherever appropriate or required for integration with other systems.

The work includes:

1. Study, requirement, understanding and analysis with respect to developing Web Based Application for UPPC after undertaking the study of the existing systems:
 - Preliminary study for existing system of UPPC.

Handwritten signature
17/8/21

Handwritten signature
17/8/21

Handwritten signature
17/8/21

- Requirement gathering through consultation with UPPC.
 - Finalisation of Software and Database configuration.
 - Finalization of data migration and changeover strategy for smooth changeover.
2. Design, Development, Implementation and Maintenance of proposed Web Based Application.
 3. The system should have options for multiple level of administrative control having varied rights for all the modules so that they are able to perform functions pertaining to their respective Centre/Domain as per their assigned rights.
 4. The system should be robust, responsive and support at least "20" concurrent users (final number to be estimated while preparing SRS by the vendor) and scalable as per need.
 5. The bidder shall carry out the Data migration/Porting of existing data into the new system. The format/schemas of existing data may be provided on request.
 6. The bidder shall get the system security audited at its own cost from CERT-In/CERT-In Empanelled vendors.
 7. The selected bidder shall be required to provide Warranty/AMC, Maintenance, and Technical Support from the date of issue of completion certificate, and Annual maintenance of system with onsite technical support as and when required. Warranty/AMC include minor additional requirements/minor changes apart from regular maintenance. The free warranty/AMC period would be of three (3) years after the successful implementation of the system on production server. The successful implementation of the system means:
 - Sign off of User Acceptance Testing (UAT)
 - Security Audit
 - Successful Implementation on Production Server
 - Handover of actual running software source code completed in all respects.
 8. Identify the training requirements and train the concerned UPPC staff/officers enabling them to operate the developed system. The training shall include application, database and other related features.
 9. Preparation of User, Design & Technical manuals and other documents for the developed system in an easy to understand and user friendly language with proper Diagrams, Screen-shots and charts wherever required.
 10. The selected bidder shall deploy one (1) resource onsite for the entire duration of the project, including AMC period of three (3) years.

Manpower Details & Minimum Qualification -

#	Manpower Details & Min. Qualification	Quantity
1	Software Development/ Support (a) Must be B.E. / B.Tech/ MCA (b) Must have 2+ years of experience for software project implementation (c) Must have experience for at-least one (1) software development projects	1

Manu
2020

1.3 Indicative Scope of Work

The indicative scope of work regarding Designing, Development, Implementation, and Maintenance of Online Process for Registration, Renewal and Transfer at UPPC is specified as under:

Phase 1: Requirement Gathering

- ▶ Study of the existing systems which includes database, features and functionality, eligibility, Registration, Renewal, Transfer, etc. to determine precise requirements of the new system.
- ▶ Estimating the load on the application like number of active users, registration volume, backup etc. to assess the hosting services.
- ▶ Detailed discussions with concerned UPPC officials to understand the overall objectives of the assignment.
- ▶ Finalizing the detailed list of activities, scope and duration of each of the activity and detailed project plan.
- ▶ Finalization of Project Objectives/Requirements.
- ▶ Submission of detailed Project Proposal/Plan.
- ▶ Sign off on detailed project plan, activities, timelines etc. from UPPC
- ▶ Ensure client Sign-off for Requirement Analysis.

Phase 2: Design

- ▶ Study and analysis of existing/similar systems and include best practices in draft design.
- ▶ Carry out a System Study including SOPs, guidelines, programmes eligibility, existing systems to be replaced and with which to interact, etc. to prepare the Software Requirements Specification (SRS) and Functional Requirement Specification (FRS) document.
- ▶ Identification of technologies/platforms compatible with GI Cloud.
- ▶ Detailed High level and Low level application designs.
- ▶ Information Integration and Consolidation.
- ▶ Selected Bidder shall develop appropriate screen layouts and templates for the user feedback. - Wire framing
- ▶ Approval of prototype (design interface) as developed by vendor.
- ▶ Coordination and collection of required data from UPPC.
- ▶ Proper backup policy
- ▶ Data migration strategy
- ▶ Comply with website security and Auditing & Logging guidelines

Phase 3: Development & deployment

- ▶ Coding/Temporary Demo server
- ▶ Importing of data for testing
- ▶ Application Development
- ▶ For payment by its various stakeholders: CSC-SPV Wallet and NEFT/RTGS/IMPS support shall be used. Any other mode of payment as and when need arises may also be included in future. Generation of receipts/acknowledgements.
- ▶ Adherence to Web Application Audit/Compliance and Approval/Security Features
- ▶ Rigorous testing of Developed system including Unit Testing, Integration Testing, System Testing, Functional Testing, Peak Load Testing, etc. with reports.
- ▶ Testing of developed system based upon Compliance to applicable guidelines, Assess the user objective achievement,
- ▶ Developed System Application should have multiple backend systems interfacing capabilities.

Handwritten signature

- ▶ Completed system components for UAT
- ▶ Migration of existing data for UAT
- ▶ UAT Sign-off by UPPC
- ▶ Modification based upon user feedback
- ▶ Migration of data to production environment
- ▶ Sign off on developed system by UPPC
- ▶ Deployment including High availability architecture with following elements:
 - i. Load balancing and Redundancy.
 - ii. Elimination of single points of failure.
 - iii. Detection of failures as they occur.

Phase 4: Operation and Maintenance support (for 3 years)

- ▶ Identify and execute training requirements for successful execution of integrated system
- ▶ Creations of necessary documents and User Manual for training
- ▶ Support in handover of system to UPPC
- ▶ Support on Training / Demo as and when required
- ▶ Annual Maintenance of system
- ▶ Change management, as required by UPPC

Phase 5: Handover to the Department

- ▶ Since web based application is to be developed for UP Pharma Council, selected vendor shall hand over the source code written on Rs.100 Non Judicial Stamp paper to UP Pharma Council before completion of contract. The vendor shall not share the data and any other documents related to U.P. Pharmacy Council with any third party. The council will have right to get any other firm on board before/after completion of 3 years.

1.4 Workflow and Features for Application Development:

The proposed workflow of UPPC can be found below. This is a summarized version of the efforts to be undertaken while developing the platform. The detailed requirement and flow will be finalized at the stage of requirement gathering as described above

Manoj
12/8/21

Handwritten signature and date:
17/8/21

Broadly, the competent developer will provide the following features in the proposed web application. However, the effective implementation may require further fine tuning for desired performance:

#	Items	Components	Modules/Features
1	Web Application Designing of UPPC	Database and Development	▶ User friendly System with logically organized Navigation Controls for easy information accessibility. ▶ The Web Based Application should be able to support all common browsers and mobile platforms (like Internet explorer, Mozilla, Chrome, Safari, Android, iOS, Windows platform etc. up to the latest version). ▶ The Web Based Application solution should be designed in such a way that all the functionalities must be available to the end user even at the minimum Broadband speed specified by the Government of India/ Telecom Regulatory. ▶ Application should have a responsive design and should be mobile usage friendly ▶ Passwords shall be sent and saved in encrypted form. ▶ System should be robust to handle all kinds of data. ▶ System shall be able to store images/scanned docs into database in uniform size at acceptable resolution. ▶ System must be error/bug free at the time of production use. ▶ The system will take care of removal of duplicate records and well standardized optimized database schema/design. ▶ System will have data records import/export facility to and from spreadsheets. ▶ Customized Portal/ Application views for Administrative and Public Users.
2		Provision for Old Data Migration to new application	▶ System should have the provision for scanning and uploading of Photo and Documents etc., data entry and creation Log ID etc. for data of registered Pharmacists
3		New Online Registration/ Renewal/ Transfer	▶ System should have the facility to create Log in IDs by the users using mobile OTP for various type of users/applicants including but not restricted to new registration, renewal, late fee renewal/restoration, transfer/reciprocal, duplicate copy of registration certificate. ▶ System should ensure that an individual is not able to create duplicate login credentials using the same name, phone number. ▶ Systems should have an online appointment system through which all applicants can book an appointment slot depending on the availability, process, and their individual requirement. ▶ System should have the facility for uploading of documents required with application and record the date of submission. ▶ Provision of choosing of colleges by the candidate from a

Mansu
2020
15/8/21

			pre-defined list of colleges for colleges within Uttar Pradesh and outside of the State. The list of colleges and email ids will be provided by U.P. Pharmacy Council. ▶ Submission of online payment for all candidates related transactions including but not restricted to new registration, renewal, late fee renewal/restoration, transfer/reciprocal, duplicate copy of registration certificate ▶ System should have downloading option for all forms, including the self-declaration form and completed application form. ▶ Users should have the facility to submit applications Once the application is submitted, the applicant cannot change / update the form ▶ System should be able to check and control timelines associated with the process. It should allow users to select dates for in-person verification and auto block dates which have already been selected/ saturated (Number of slots per day as decided by the Council). ▶ System should have the facility of saving registration information and submission of form Provision/ confirmed status. System to have option to upload the pending documents to clear the provisional status ▶ Registration process should generate a unique registration number and fetch the key information relevant for the particular applicant like process, fee, appointment slots ▶ System should have Online Payment Gateway (Credit/ Debit/ NEFT/ RTGS/ UPI etc.) ▶ For document verification, system should have the provision to send a mail to the college for verification of the candidate for colleges within Uttar Pradesh and outside of the state. The list of colleges and email ids will be provided by U.P. Pharmacy Council. ▶ System should be able to generate alerts in form of emails / messages. (Notifications to be sent to users to keep them informed at all stages of the Registration/Renewal/Transfer process)
4	Hosting	Cloud based Hosting	▶ Cloud based hosting for 3 years with ability to renew annually.

m anu

2. Salient Features of Web Application designing for UPPC

- 2.1 User friendly System with logically organized Navigation Controls for easy information accessibility.
- 2.2 The Web Based Application will be able to support all common browsers and mobile platforms (like Internet explorer, Mozilla, Chrome, Safari, Android, IOS, Windows platform etc. up to the latest version).
- 2.3 The Web Based Application solution will be designed in such a way that all the functionalities must be available to the end user even at the minimum Broadband speed specified by the Government of India/Telecom Regulatory.
- 2.4 Application will have a responsive design and should be mobile usage friendly.
- 2.5 Passwords shall be sent and saved in encrypted form.
- 2.6 System will be robust to handle all kinds of data.
- 2.7 System shall be able to store images/scanned docs into database in uniform size at acceptable resolution.
- 2.8 System will be error/bug free at the time of production use.
- 2.9 The system will take care of removal of duplicate records and well standardized optimized database schema/design.
- 2.10 System will have data records import/export facility to and from spreadsheets.
- 2.11 System will have the facility to create Log in IDs by the users using mobile OTP for various type of users/applicants including but not restricted to new registration, renewal, late fee renewal/restoration, transfer/reciprocal, duplicate copy of registration certificate.
- 2.12 The system should have the facility to automatically send a mail to the college of the candidate for verification purposes for colleges in Uttar Pradesh and outside of the state. The list of colleges, websites and email ids will be provided by U.P. Pharmacy Council.
- 2.13 Systems will have an online appointment system through which all applicants can book an appointment slot depending on the availability, process, and their individual requirement.
- 2.14 System will have the facility for uploading of documents required with application and record the date of submission.
- 2.15 Submission of online payment for all candidates related transactions including but not restricted to new registration, renewal, late fee renewal/restoration, transfer/reciprocal, duplicate copy of registration certificate including the self-declaration form and completed application form.
- 2.16 Users will have the facility to submit applications. Once the application is submitted, the applicant cannot change / update the form
- 2.17 System will be able to check and control timelines associated with the process. It will allow users to select dates for in-person verification and auto block dates which have already been selected/ saturated (Number of slots per day as decided by the Council).
- 2.18 System will have the facility of saving registration information and submission of form Provision/ confirmed status.
- 2.19 System will have option to upload the pending documents to clear the provisional status
- 2.20 Registration process will generate a unique registration number and fetch the key information relevant for the particular applicant like process, fee, appointment slots.
- 2.21 System will have Online Payment Gateway (Credit/ Debit/ NEFT/ RTGS/ UPI etc.).
- 2.22 System will be able to generate alerts in form of emails / messages. (Notifications to be sent to users to keep them informed at all stages of the Registration/Renewal/Transfer process).
- 2.23 System will be developed including Unit Testing, Integration Testing, System Testing, Functional Testing, Peak Load Testing, etc. with reports.
- 2.24 Data migration of old data to newly developed system, if applicable
- 2.25 Team member will be present anytime for training and maintenance purpose.
- 2.26 Provision of online chat system and telephonic helpdesk system
- 2.27 A scheduled data backup shall be taken
- 2.28 A QR code shall be generated to contain registration information
- 2.29 Dedicated & secured dashboard for administrator.
- 2.30 Any time & real time access of information
- 2.31 The Web Application will be developed using Asp.net technology with C# language and Visual Studio 2019 Framework.
- 2.32 SQL Server 2019 will be used for database management.
- 2.33 Windows Web Server will be used for Web Hosting.
- 2.34 The application should meet both internal and external need of exchanging data/reports which are already catered and included to be catered electronically in XML/JSON format either online or using a media like pen drive in.csv, .excel formats etc.

mpdce

The features are summarised in the below table.

#	List of Modules	Brief Functionality
1	Login/Registration/Document Upload	• Candidate Login/New Sign Up • Verify OTP on Mobile no. and e mail • Successful Verification and Login • Candidate Registration (Address, education detail, License type etc.) • Document Uploaded (Degree, qualifications, Photo, Signature etc.)
2	Payment	• Payment Capture • Payment Gateway • Payment Requisite fee (New/Renewal/Transfer)
3	Appointment Selection	• Available slot selection for original document verification • Notification sent through SMS alert & e mail to report on Appointment Date with document in original.
4	Status Track	• Online real time feature for tracking the progress. Notification through SMS alert & email notification.
5	User Management	• User Management
6	Alert Management	• Alert Management
7	Dashboard	• Dashboard for Analytical Data

3. Contract Duration:

Software development and Go-Live shall be done within 3 months of signing the contract. The selected bidder shall also provide Operation and maintenance services for 3 years, post Go-Live.

4. Obligations of Selected Service Provider

- 4.1 The selected service provider will be completely responsible for software development, User Acceptance Testing, Security Audit and operations support & maintenance for 3 years.
- 4.2 Refer section 1 of this RFP document for detailed scope of work. The service provider shall be responsible for completing all the activities mentioned in Scope of Work.
- 4.3 The selected service provider shall deploy one (1) resource onsite for the entire duration of the project, including AMC period of three (3) years after the successful implementation.

5. Variation in scope of work

Without any additional terms and conditions, the Authority may increase/decrease in the defined Scope of Work, as it deems appropriate by up to 25% by total value of the project in terms of Scope of Work.

6. Selection of Bidder

- 6.1 Only those Bidders whose Technical Bids score 70 points or more out of 100 shall qualify. All the qualified bidders as aforesaid, shall be pre-qualified for evaluation of their Financial Bids.
- 6.2 The Financial Bids of technically qualified/responsive bidders will be opened on the prescribed date in the presence of bidder representatives.
- 6.3 For financial evaluation, the total cost indicated in the Financial Bid shall be considered. Any conditional bid deviating from the bid conditions, will be rejected.
- 6.4 The selection method is Least Cost Based Selection (LCBS or L1). If financial rate of the bidders match in that case, the bidder who has obtained higher technical marks will be declared L1.

Moulan

7. Minimum Eligibility and Evaluation

7.1 Minimum Eligibility Criteria

Interested bidders must carefully read the minimum criteria of eligibility provided herein. Bids of only those bidders who satisfy the eligibility criteria will be considered for evaluation.

To be eligible for evaluation of its Bid, the bidder shall fulfil the following:

#	Eligibility Criteria	Documents / Proof required
1	The bidder should be a company registered under Indian Companies Act, 1956 or a partnership firm registered under Indian Partnership Act, 1932 or LLP Act 2008, and should have been in existence since last 5 years. Consortium of companies is not allowed.	Copy of Certificate of Incorporation/ Registration Certificate
2.	The Bidder shall have an average annual turnover of INR 5 Cr, from IT/ITES services, from Indian operations in last three financial years FY 17-18, FY 18-19, FY 19-20.	Copy of the audited Balance Sheet and Profit & Loss Statement of the company/Certificate from the Chartered Accountant
3.	Net Worth: Net Worth of the prospective bidder must be positive as per the last audited financial statement.	(CA certified for last financial year i.e. FY 2019-20)
4.	The Bidder should have experience in implementation of projects having software development, support and maintenance to Government organizations, Regulatory commission, Tribunal, Statutory authority, Government Undertaking / PSU Sector in last 5 financial years including current financial years - One Project of value INR 40 Lakhs OR - Two Projects of value INR 30 Lakhs each OR - Three Projects of value INR 20 Lakhs each Please note, only projects whose development phase is complete and Go-Live certificate has been issued will be considered for this eligibility clause. Projects which only entail Support & Maintenance services shall not be considered for the purpose of this eligibility clause.	Copy of Work Order / Contract And Copy of Completion certificate/ GO-Live Certificate (in case of ongoing project) reflecting clearly value and scope of work
5	Bidder shall have at least one of the following certifications - - ISO 9001:2015 - ISO 27001:2013 - CMMI L3 or Higher	Copy of Certificates
6	A Bidder shall not have a conflict of interest (the "Conflict of Interest") that affects the bidding process. Any Bidder found to have a Conflict of Interest shall be disqualified.	Declaration from Authorized Signatory on company letter head
7	The bidder should not have been barred or blacklisted by the Government of India,	Declaration from Authorized Signatory on company letter head

	Government of Uttar Pradesh or Union Territory or any State Government in India for breach of Contractual Conditions as on bid due-date date. Any entity which has been barred/ blacklisted by the Government of Uttar Pradesh, any other State Government or Government of India from participating in any project, and the bar/blacklisting subsists as on the Bid due-date, the entity will not be eligible to submit the Bid.	
8	The bidder should have a registered number of GST and Pan Number.	Copy of GST & PAN

Note:

- a) A Bidder shall be liable for disqualification and forfeiture of Bid Security if any legal, financial or technical adviser of the Nodal authority in relation to the IT Service provider is engaged by the Bidder in any manner for matters related to or incidental to the IT Service provider. For the avoidance of doubt, this disqualification shall not apply where such adviser was engaged by the Bidder in the past, but its assignment expired or was terminated 6 (six) months prior to the date of issue of this RFP.
- b) *In case of non-availability of audited financial statements for FY 2019-20, kindly provide self-declaration/undertaking regarding non-availability of the same, along with provisional chartered accountant-certified statements.

Marsu

7.2 Technical Evaluation Criteria

Only those bidders whose bids are found to be responsive and meet all the conditions as specified under the Minimum Eligibility Criteria above shall be evaluated on the following Criteria:

The scoring criteria to be used for Technical Bid evaluation of eligible bidders shall be as follows.

#	Particulars	Max Marks	Criteria / Documentary Proof
1	The Bidder should have experience in implementation of projects having software development, support and maintenance to Government organizations, Regulatory commission, Tribunal, Statutory authority, Government Undertaking / PSU Sector in last 5 financial years including current financial years - - Each Projects of value > 40 Lakhs - 10 Marks - Each Projects of value > 30 Lakhs & =< 40 Lakhs - 5 Marks - Each Project of value > 20 Lakhs =< 30 Lakhs - 3.33 marks Please note, only projects whose development phase is complete and Go-Live certificate has been issued will be considered for this eligibility clause. Projects which only entail Support & Maintenance services shall not be considered for the purpose of this eligibility clause.	30	Copy of Work Order / Contract And Copy of Completion certificate/ GO-Live (in case of ongoing project) reflecting clearly value and scope of work
3	Bidder shall have following certifications - - All three certifications - ISO 9001:2015, ISO 27001:2013, CMMI L3 or higher = 15 Marks - If any two of ISO 9001:2015, ISO 27001:2013, CMMI L3 or higher = 10 Marks - If any one of ISO 9001:2015, ISO 27001:2013, CMMI L3 or higher = 7 Marks	15	Copy of Certification
4	Average annual turnover of the Applicant from IT/ ITES services in last 3 years (2017-18, 2018-19, 2019-20) >15 Crore - 20 Marks >10 Crore and =<15 Crore - 15 Marks =>5 Crore and =< 10 Crore - 10 Marks	20	Copy of the audited Balance Sheet and Profit & Loss Statement of the company /Certificate from the Chartered Accountant
5	The bidder must have on its Payroll at least 20 technically qualified professionals having experience in Software development, support and maintenance to perform the services as per RFP - More than 50 Manpower with relevant skillset - 15 Marks - More than 20 and up to 50 Manpower with relevant skillset - 10 Marks	15	Self-Certification from HR of the firm confirming the number relevant Manpower
6	Bidder's experience in Design, Development and Implementation of Software solutions in India - - More than 7 years - 15 Marks 5 - 7 years - 10 Marks	15	Number of years since Incorporation

Mansur

7	Proposed Resource - Software Development/ Support (a) Must be B.E. / B.Tech/ MCA and have 2+ years of experience for software project implementation (i) 2 - 5 years - 2 marks (iii) > 5 years - 5 marks	5	Detailed CV
---	---	---	-------------

*Last three Financial Years - FY 2017-18, 2018-19, and 2019-20. In case of non-availability of audited statements for FY 2019-20, bidder must provide self- declaration/undertaking regarding non-availability of the same along with provisional chartered accountant-certified statements.

*Selected bidder is required to align dedicated team members for this project delivery. Project Manager and key team members shall be made present to client office for interaction as and when required.

7.3 Financial Bid

Bidder shall quote the Lump-sum price for the entire project, when prompted for the financial bid/quote on GeM.

The Financial Bid shall take into account all expenses and tax liabilities excluding GST. Further, all payments shall be subject to deduction of taxes at source as per Applicable Laws.

As PART OF TECHNICAL BID DOCUMENTS, the bidder should submit the percentage split of their financial bid in the format below.

#	Particulars	Percentage split of financial bid (to be filled and submitted by the bidder as part of TECHNICAL BID documents at the time of bid submission)
1.	Project Go-Live	
2.	One (1) Onsite - Resource Deployment and Hosting and Operation & Maintenance for 3 years	
	Total	100%

Note:

1. Total price in INR to be quoted on GeM portal ONLY
2. No absolute value in INR to be mentioned in the above table or anywhere in technical part of the bid as part of Technical Bid documents.
3. The sum of percentage (%) mentioned in row 1 & row 2 shall not be more than 100%.

Mandu

8. Payments

Payment shall be made as per below -

#	Activities	Fee
1.	Completion of Requirement gathering and Client Sign-off for Requirement Analysis	30% of fee for "project Go-live"
2	Project Go-Live & Sign-off from the Authority	70% of fee for "project Go-live"
3.	One (1) Onsite - Resource Deployment and Hosting and Operation & Maintenance for 3 years	The bidder shall raise the invoice on Quarterly basis

- The bidder's request for payment shall be made in writing, accompanied by an invoice describing, as appropriate, the milestone or milestones, delivered along with necessary reports/documents.
- Payments shall be made promptly by the Nodal Authority, after submission of a valid invoice by the bidder and after the satisfactory report.
- Deductions, if any, on Payment for invoice raised by the bidder will be as per Government Tax reforms & Penalty charges if applicable, will be as per SLA Agreement.
- All the payments shall be made only in INR (Rs).
- The T.D.S. as applicable will be deducted from payments as per rule.
- Taxes as applicable shall also be included in the invoice.
- The authority will be responsible for purchasing SMS/email package.

Masur

9. Service Level Agreement & Liquidated Damages (LD)

9.1 Liquidated Damages: Up to Go-Live (on account of delay)

Project Go-Live should be completed within the 3 month time frame, from the date of signing of contract, failing which Liquidated damages will be charged at the rate of 1% (one percent), per week or part thereof of the payment against the concerned milestone, subject to maximum limit of 10% of the total order and forfeiture of the entire EMD and/or the Security Deposit and/or Performance Guarantee of the defaulting bidder for noncompliance/delay of milestone.

9.2 Liquidated Damages for Operation & Maintenance (O&M)

The total LD for O&M Phase will not exceed 10% of the total amount payable during O&M Phase, for delay due to reasons attributable to bidder. It will be calculated with respect to the amount payable for O&M value on yearly basis and LD amount exceeding 10% of the yearly value will be carried over to the next year(s). Carried over LD, if any, will be adjusted against the final payments of the contract period. However, the total LD for O&M Phase will not exceed 10% of the total amount payable during O&M Phase.

a) Liquidated Damages for non-achievement of SLA: O&M Support

- Down time of any application's services designed, developed & implemented by SI -
 - No penalty up to 6 hours/month
 - If downtime is between 6-15 hrs/month, applicable penalty 0.05% per Hour of total Quarterly Payment
 - If downtime exceeds 15 Hrs/month, applicable penalty 0.1% per Hour of total Quarterly Payment shall be charged and so on
